

THALES

We are delighted to invite you to our online workshop entitled:

SocialTruth, the anti-fake news system for ranking the trustworthiness of news

Friday 21th January 2022
(12:00-14:00 Eastern European Time - Bucharest)
Register [here](#)

The SocialTruth solution can be used to detect fake news by both professionals (e.g., journalists) and individuals (e.g., social media users daily), allowing for improved governance and information integrity in social media.

This final workshop will aim to present the many achievements of our project answer questions regarding the SocialTruth solution.

For more information about the SocialTruth project, visit [our website](#), watch the [EU Horizon2020 - SocialTruth Consortium Partners & Project Presentation](#) and [use SocialTruth successfully](#).

Feel free to share this email with others. Please note that registration is mandatory for attending the event.

For any possible questions, please get in touch with us at office@infocons.ro.

We hope you are all happy and safe and we are really looking forward to seeing you all soon!

Yours sincerely,

Eng. Ana Paun,

Marketing Director InfoCons Association

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 825477.
